a) Bug1: **Selected wallet shouldn't be shown on a wallets list.**
Priority: *medium*
Steps to reproduce:
1.   Go to Spectrocoin.com and log in.
2.   Make sure you're on Wallet tab and select DASH wallet.
Expected results: Since DASH wallet is selected and it's shown highlighted on the top of the list, it shouldn't be included into wallets list again.
Actual resuls: DASH wallet is selected and it's shown highlighted on the top of the list, but it's also shown on the wallets list (with amount 0 which must be confusing for users).

Bug2: **Currency is missing from last entry on wallet history.**
Priority: *low*
Steps to reproduce:
1.   Go to Spectrocoin.com and log in.
2.   Make sure you're on Wallet tab and select DASH wallet.
Expected results: On wallet history for each entry on amount column currency is defined.
Actual resuls: On wallet history for last entry only number is defined on amount column, currency is missing.

Bug3: **On wallet history time formal is wrong for last entry.**
Priority: *low*
Steps to reproduce:
1.   Go to Spectrocoin.com and log in.
2.   Make sure you're on Wallet tab and select DASH wallet.
Expected results: Time format should be same for each entry – hours, minutes, seconds.
Actual resuls: For last entry time format is without seconds.

Bug4: **On time filter from wallet history word `to` is missing.**
Priority: *low*
Steps to reproduce:
1.   Go to Spectrocoin.com and log in.
2.   Make sure you're on Wallet tab and select DASH wallet.
Expected results: First filter input has title `Date from` and second - `Date to`.
Actual results: Second input has tile `Date`.

b) Bug5: **Wrong tab is highlighted on bar when Wallet tab is actually open.**
Priority: *low*
Steps to reproduce:
1.   Go to Spectrocoin.com and log in.
2.   Go to Wallets tab.
Expected results: Wallets are shown and Wallets tab is highlighted on bar.
Actual results: Wallets are shown but Exchange tab is highlighted on bar.

Bug6: **Wrong symbol is shown on XAU wallet.**
Priority: *medium*
Steps to reproduce:
1.   Go to Spectrocoin.com and log in.
2.   Go to Wallets tab.
Expected results: Each wallet has corresponding symbol on it.
Actual results: On XAU wallet GBP symbol is shown.

Bugs not from the task. I found few bugs on login so I'd like to share them as well since login section is really important.

Bug7: **Page is crashing when Login with Facebook is canceled.**
Priority: *high*
Steps to reproduce:
1.   Go to Spectrocoin.com and click Log In.
2.   Select Sign in with Facebook.
3.   On Facebook authorization page click Cancel.

Expected results: User is redirected back to Log In page on spectrocoin.com.
Actual results: Page craches.

Bug8: **Page is crashing after creating account with Google.**

Priority: *high*

Steps to reproduce:

1. Go to Spectrocoin.com and click Log In.
2. Select Sign in with Google.
3. Select Google account with doesn't have SpectroCoin account.
4. Create security questions and provide other requested data to create an account.

Expected results: User is loged in to new account on SpectroCoin.
Actual results: Page crashes.
